Unpublished FDA FOIA Records: Search & Download NOW!

The Freedom of Information Act (FOIA) requires U.S. agencies to disclose many of their records.

FDA's FOIA records usually aren't on the agency website – they're files from the desk drawers of reviewers, investigators, and other officials - and FOI Services has collected over 100,000 of these documents.

House to Weigh Overhaul Of Open Records Process

By GARDINER HARRIS

WASHINGTON — Fifty years after Congress passed a law

Among the agencies that failed to comply was the Justice Department's Office of Information Policy, the federal entity that is

requests.

Ms. Kwoka said one solution to the routine commercial requests was for the government to do a better job of automatically disclosing such information online, before it is requested.

John Day, vice president at Day & Day, said, "If they did that, a good part of our business would go away." He added, "So I think it's a bad idea."

Senator Charles E. Grassley, a Republican of Iowa and chairman of the Judiciary Committee, said he was a strong supporter of Ms. Kwoka's suggestion that agencies disclose records before requests are received.

"The reform bills working
